Our Company's values include purposeful service, innovative offerings, challenging work, personal achievement, value creation, respectful interaction and fun/rewarding work.

WHAT A HOME INSPECTOR DOES

The job of a home inspector is to inspect buildings by walking through each area, sometimes crawling into small spaces such as attics, checking rooftops, and cellars, plumbing, electricity and appliances. Then they write a detailed report outlining the condition of the property, areas where repair or replacement may be needed, and specify any potential safety concerns.

Anyone can train to become a home inspector although typically prospective students are already involved in the real estate or construction fields. The physical ability to navigate through a building is required. In general this means that the prospective student should have the physical abilities to do so.

ADMISSION REQUIREMENTS

Admission is open to any qualified applicant. No qualified person may be excluded from enrollment based on sex, race, ethnic origin or religion.

APPLICANTS MUST MEET THE FOLLOWING REQUIREMENTS

1. Submit a signed Enrollment Agreement for classes to be taken through American Home Inspectors Training.
2. Pay appropriate fees. See Tuition and Payment Plans Policy.
3. Be at least 18 years of age.

Students with Special Needs

We train a number of students with special needs and/or disabilities. Students should contact their admission counselor for assistance with requests. People who work as a home inspector must have certain physical abilities to visually inspect buildings and structures, navigate throughout the building including on the roof, the ability to write inspection reports, and communicate with clients.

Language of Training

All Courses are offered only in English. American Home Inspectors Training does not offer English as a Second Language instruction.

Transfer or Granting of Credit

No life experience, credit through challenge exams, or previous training may be applied to any Course. AHIT does not guarantee the transferability of its credits to any other institution unless there is a written agreement with another institution.

Late Enrollment

There are no provisions for late enrollment.

COLORADO REQUIREMENTS FOR HOME INSPECTORS

In some states licensing is required to inspect work as a home inspector. States are increasingly introducing legislation regarding the home inspection industry. Prospective home inspectors therefore need to contact the proper state agencies regarding requirements in their states. There are currently no requirements for the state of Colorado.
